## Summary

---

I'm a Student at K.R. Mangalam University, Currently learning Artificial Intelligence and Machine learning. I love to create models and work on projects that are challenging and interesting. I enjoy exploring the latest advancements in AI and ML and applying them to real-world problems. I strive to contribute to the field of AI and ML.

## Skills

---

Python • HTML • CSS • Tensorflow • Machine learning • Deep Learning • Pytorch • Communication • Problem solving • C++ • OpenCV • Computer Vision

## Experience or Projects

---

### Breast Cancer Detection Model Using Machine Learning

Project description:

- Used scikit-learn module in this project.
- It will identify cancer whether it is Benign(M) or Malignant(M).
- It has an accuracy of 95.4%
- Here is the link of github repo <https://github.com/Jayantparashar10/Breast-Cancer-Detection-model>

### Desktop Assistant Using Python

Project description:

- This project is based on python if and else program.
- This project uses google api to provide better.
- It is speech to text input and text to speech output.
- Here is the link of github repo <https://github.com/Jayantparashar10/Desktop-Assistant>

### Portfolio Website HTML, CSS, JAVASCRIPT

Project description:

- It is web page that reflects my portfolio.
- It has contact me section, projects section and about section.
- It has also a blog section to reflect your blogs.
- Here is the link of my website <https://lemon-dune-0a5a3ff00.5.azurestaticapps.net/>
